II. Origin

Name and address of supplier:

Name and address of exporter:

III. Destination

Name and address of consignee:

Means of transport:

IV. Health requirements for consignments(s) containing cultured saltwater ornamental fish

I, the undersigned Veterinary Official, hereby certify that the animals forming the present consignment,

- A. Have originated from a controlled establishment which is under regular veterinary control.
- B. Have originated from an establishment in which no cases of viral diseases have been recorded during the last two years.
- C. Have originated from a farm which is not in contact through the water with other farms affected by virus.
- D. Have originated from a farm whose sales have not been prohibited by sanitary regulations and have not been in contact with other fish coming from such farms.
- E. Originate from a farm in which no clinical signs of disease were observed when the said consignment of fish was conditioned for shipping.

V. Health requirements for consignments(s) containing wild capture saltwater ornamental fish

I, the undersigned Veterinary Official, hereby certify that the animals forming the present consignment,

- A. Are not sourced from a population associated with any significant infectious disease or pests and there have not been any unusual or substantial outbreaks of infectious fish disease or pests in the areas from which the fish have been collected during the 6 months prior to

collection.

- B. Were collected from an area at least 5 kilometres from any edible fish aquaculture operation and the fish in the consignment have not come into contact with water, equipment or fish associated with farmed edible fish (fish farmed for human consumption including recreational fishing).
- C. Are wild caught and have not been bred or hatched on a farm or other premises.

This certificate has been issued within 72 hours before shipment.
